

Academic Topics

Architecture, Art & Design

Architecture

- 2D & 3D representation
- Advanced Architecture
- Architectural Design
- Architectural Pedagogy
- Adaptive Reuse
- Circular cities and transition design
- Complex & hybrid buildings
- Critical analysis of architecture
- Digital modelling (3D scanners & printers)
- Innovative building materials & technologies
- Real estate development
- Regenerative design
- Research methods for architecture
- Smart buildings and cities
- Theory & History of Architecture
- Urban design
- Building Information Modeling (BIM)
- Energy efficiency in buildings

Art

- Art
- Current trends in art
- Concept art
- 2D and 3D animation
- Visual storytelling
- VFX
- Motion Capture
- Virtual Production
- Game design

Academic Topics

Architecture, Art & Design

Urbanism

- Sustainable urbanism and climate change
- Urban mobility and sustainable transportation
- Territorial planning and urban growth
- Urban regeneration and revitalization
- Affordable housing and social inclusion
- Urban data science
- Public space
- Water management and hydric resilience
- Urban economy and productive cities
- Land use planning and smart densification
- Urban security
- Urban governance and policies
- Urban waste management
- Urban landscaping

Design

- Sustainable design
- Design and development of new materials
- Design research
- Product and furniture development
- Interaction design
- Design and feminism
- Inclusive design
- Design for social diversity
- Design for other species
- Design and the fashion and luxury industry
- AI Tool Design for Design
- Strategic Design with Social Impact
- Design and futures

Academic Topics

Business

Accounting & Finance

- Advanced accounting
- Derivatives
- Financial modeling
- Financial planning strategies
- Financial technology
- International regulations
- Intermediate accounting
- Risk management
- Valuation, Mergers and Acquisitions

Entrepreneurship

- High impact solutions
- LEAN methodology for startups
- Opportunity identification & funding
- AI in entrepreneurship
- Sustainable entrepreneurship
- Social entrepreneurship

International Business & Logistics

- Business globalization
- Doing business in Europe
- Doing business in Asia
- Value chain

Academic Topics

Business

Leadership & Management

- Organizational transformation
- Human capital management
- Organizational culture
- Strategic sustainability
- AI for competitive advantage

Marketing & Analysis

- Current marketing trends
- Artificial intelligence in marketing Big data & data analysis
- Big data & data analysis
- Business intelligence
- Neuromarketing and behavioral consumer habits
- Omnichannel marketing
- Strategy development
- IA in digital marketing
- Brand immersion experience

Academic Topics

Engineering & Sciences

Bioengineering

- Bioprocess Engineering
- Genomics
- Innovative food science

Computing and Mechatronics

- Artificial intelligence
- Cyber security
- Data science
- Industry 4.0
- Smart automation technologies
- Virtual and augmented reality

Industrial Engineering

- Design and improvement of logistic systems
- Emerging trends in work design
- Optimization models and quality management

Academic Topics

Engineering & Sciences

Mechanics & Advanced Materials

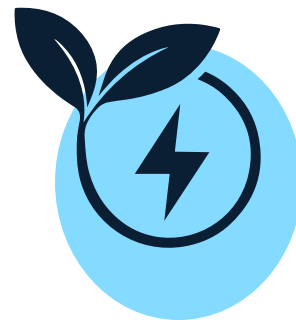

- Additive manufacturing technologies
- Advanced manufacturing processes
- Materials technology
- Mechanical and tool design

Sustainable Technologies & Civil Engineering

- Renewable energies
- Smart buildings
- Water
- Transportation Modeling

Sciences

- Current trends and new techniques
- Computational models

Academic Topics

Government & Social Sciences

Economic

- Economic decision-making
- Economic impact of backsliding democracy
- Global economy and development

Law

- International law and technology
- Intellectual property
- Private law and international commercial arbitration
- Law and Technology
- Legal Aid

Political Science and International Relations

- Gender, society and human rights
- Global challenges in uncertainty
- Peace and conflict studies
- Regional scenarios
- Strategic prospective

Governance and Public Transformation

- Technology Policy for Development
- Public Choice and Comparative Political Institutions

Academic Topics

Humanities & Education

Humanistic Studies

- Mexico's Cultural Heritage
- Gender studies, Women's Studies, Queer Studies
- Posthumanism
- Ethics (business, psychology, society, technology)
- Symbolic Structures in Image, Literature and Music

Media & Digital Culture

- Social media management
- Communication theories/Cultural studies
- Media production
- Music theory
- Sound design
- Strategic communication
- Transmedia storytelling
- Music production

Education

- Global and comparative education
- Fundamentos de la pedagogía
- Concentración Neurociencias
- Peace and conflict studies
- Regional scenarios
- Strategic prospective

Academic Topics

Medicine & Health Sciences

Health

- Health research
- Technological innovation in health
- Project design and community intervention
- Epidemiology and public health
- Health promotion
- Integral wellness
- Prevention of diseases in the life cycle

Nutrition

- Food science and nutrition innovation
- Sport nutrition
- Nutritional care process
- Nutrigenomics

Psychology

- Instruments for psychological assessment and diagnosis
- Comprehensive psychological care
- Mental health promotion

Odontology

- Oral assessment at different stages of life
- Technological innovation in dentistry

Medicine | Bioscience

- Basic pathology
- Surgical pathology
- Etiology of the disease
- Screening tests and laboratories
